

Plant Seeds of Hope with Jubilee Farms

Become a Founding Tower Sponsor

At Jubilee Housing, we believe every neighborhood deserves not only deeply affordable homes but also the resources that help communities thrive. That's why we are launching Jubilee Farms, a first-of-its-kind aquaponics farm located in the basement and rooftop of our new Ontario Place affordable housing community.

This isn't just farming. It's transformation.

Fresh Food Access

Fresh, healthy produce will flow directly to Jubilee residents—at little or no cost—while also being available for purchase in the wider community.

Workforce Training

Returning citizens will receive hands-on workforce training, developing skills that open doors to new jobs and brighter futures.

Community Building

A hyper-local food system will dramatically reduce greenhouse gas emissions and become a gathering place where neighbors connect around nourishment, dignity, and opportunity.

Be a Tower Sponsor for 2026

In an aquaponics farm, life grows in towers nourished by nutrient-rich water. Each tower represents a pillar of stability, opportunity, and hope.

Your \$1,000 sponsorship of one tower will:

- Provide fresh produce to hundreds of affordable housing residents.
- Create job training and pathways to employment for people reentering society after incarceration.
- Support a sustainable food source that strengthens our entire neighborhood ecosystem.

In Gratitude, You'll Receive:

- An invitation to our exclusive Jubilee Farms Planting Party, where together we'll plant the first seeds of this bold vision.
- A VIP taste-testing during our first harvest.
- A complimentary CSA box of fresh Jubilee Farms vegetables to share in the fruits of your generosity.
- Recognition as a Founding Tower Sponsor, joining a select group of leaders investing in this transformational project.

We have an audacious goal: **100 towers sponsored this year** to build Jubilee Farms from the ground up. Each tower is more than equipment—it's a statement that our community deserves enough food, enough opportunity, and enough hope for everyone.

Will you be one of the visionaries who says yes to planting the future with us?

Sponsor a tower today at jubileehousing.org/farms and join us in creating a farm that feeds both body and soul.
